

MY PORTFOLIO

About Me

I am a passionate and dedicated web developer specializing in building modern, interactive, and user-friendly web applications using React and MongoDB. With a focus on delivering high-quality designs and seamless user experiences, I continuously strive to bring innovative solutions to the table. My journey in web development has allowed me to work on various projects, from static websites to dynamic web applications, with a deep understanding of front-end technologies and back-end database management.

Education

2022-2026

FCI University

I started to learn programming and web developing in my university

2024

DEPI

I get a train in DEPI for react web develop.

2024

ACPC

It is my first time joining to ACPC competition .

Personal Skill

I can solve problems and I joined to ACPC last juli 2024 . and I am web designing and can take very profissional photos .

- Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js
